In May 26-28, Robotics and Mechatronics Conference 2006 (Robomec 2006) was held in Okubo Campus, Science & Engineering, Waseda University.

Associated with Robomec 2006, we have organized our community's exchange and visit on May 26. We had the opportunity of visiting Takanishi lab with Waseda University in Japan by courtesy of Prof. Takanishi and members of his lab.

For further information, please see the 'Activities' -> '[Exchange and Visit](#)' subsection from the Main Menu on the left.
